

**TECH SOLAR
AND
SYSTEMS**

www.techsolarsystems.com

About us

Tech Solar and Systems is one of the leading company in the central India for the implementation of Solar energy systems. It is incorporated by group of professionals to venture in to the emerging solar market in the country. All the promoters are highly qualified and are committed to this sector for fulfilling their social obligation and to be part of the solar revolution in the country.

We accomplish this by virtue of our team of the most experienced and highly skilled employees in India. Our professional workforce focuses on the design and construction of each individual project - right down to the smallest of details.

Since its inception, the company has made its goal to be the standard setter for the Solar energy industry and to bring clean, green electricity both to the urban environment and the periphery.

Our Services includes

Engineering Procurement & Comissioning (EPC)

Power Purchase Agreement

Consultation for Residential to Utility scale projects

Local Authority Approvals

System Finance

Mounting Structure Solutions

Life span operation and maintenance

Life span system monitoring

Who can take benefit of Solar Power?

RESIDENTIAL

Types of system

- On-Grid
- Off-Grid

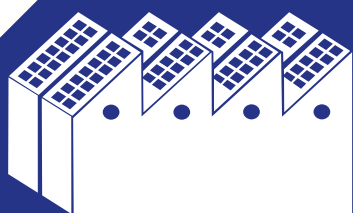

Benefits:

- Government Subsidy.
- Savings in property tax.
- Sell power through Net Metering.
- Investment in solar pays more than FD.

COMMERCIAL

- Commercial setups pay electricity cost at nearly **Rs.15/unit**. Hence there is a wide potential to reduce their energy bills.
- **Tax saving** through Accelerated Depreciation.
- Financing/BOT options are available.
- Sell power through Net Metering.

INDUSTRIAL

- **Tax saving** through Accelerated Depreciation.
- Financing/BOT options are available.
- Sell power through Net Metering.
- Promote your company as a Green Business.
- Purchase power at lower cost through PPA.

AGRICULTURAL

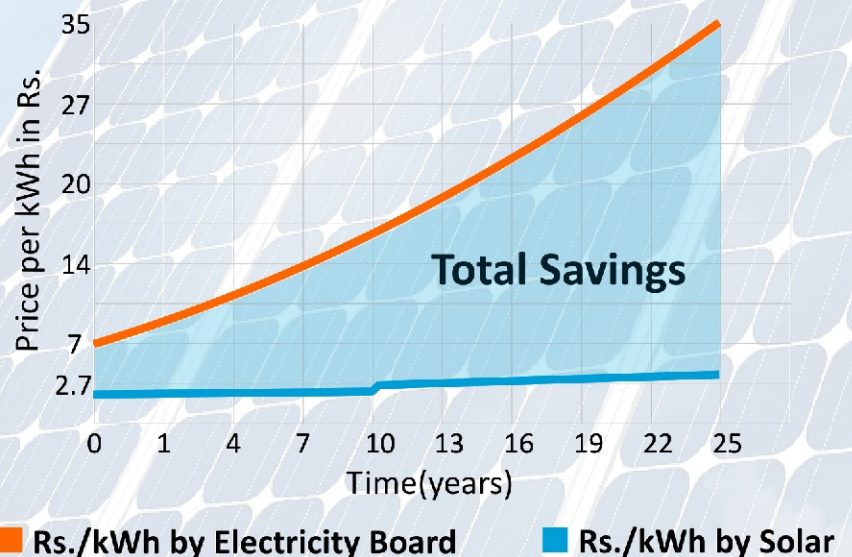

- Government **Subsidy**.
- Stand alone systems.
- Independent system from utility grid.
- Irrigation becomes much easier.
- Remote electricity supply for agriculture based business.
- Solar mini-spinning unit
- Solar fencing

Why Invest in Solar?

- Attractive ROI & IRR.
- Solar pays more than your Bank.
- Financing available on lower interest rates for solar projects.
- Highly reliable & low maintenance with 25 years working life
- Guaranteed returns with solar projects we implement.
- Sell unused power to DISCOMs through Net Metering.
- Reduce Carbon Emission.
- Tax savings on Solar projects.
- Solar power is non-polluting and renewable.

Predicted **Electricity Board** vs **Solar PV** unit cost

AN EXCITING FUTURE

Stepping ahead & spreading awareness

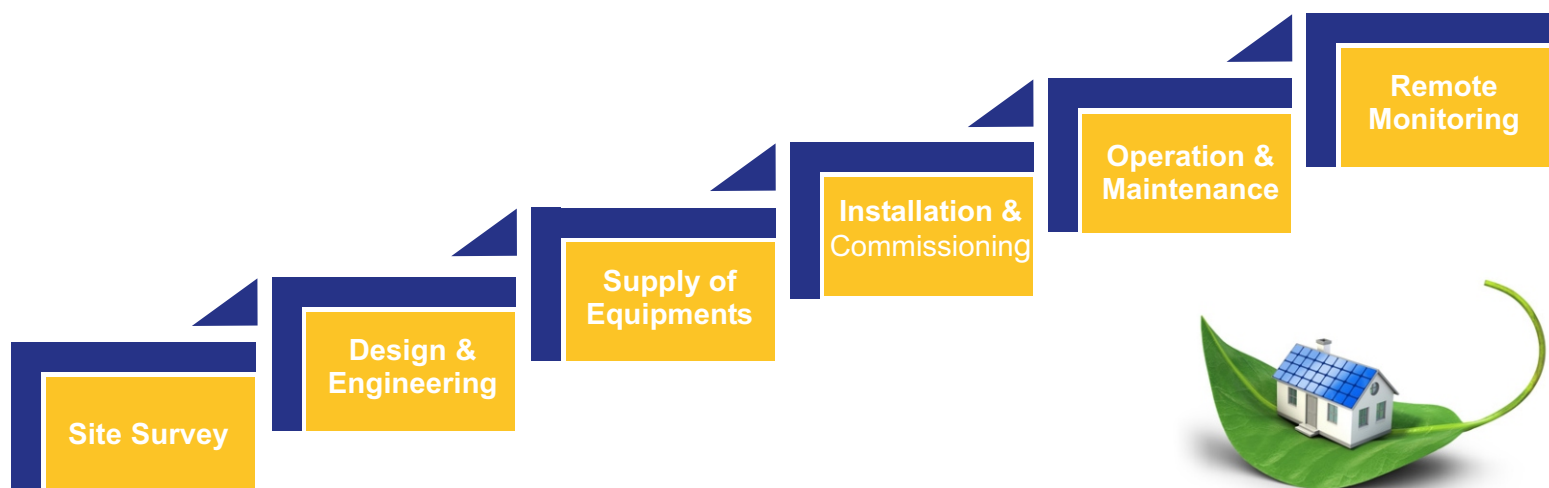

With small, local beginnings, Tech Solar has grown over the years to become one of the leading solar installation and consulting firms in Nagpur city. Over the time record growth has established Tech Solar as a household name in the solar industry.

Throughout the years, Tech Solar has built partnerships with some of the leading solar energy manufacturers in the India and around the world. This unique position gives Tech Solar the ability to offer a variety of solar energy solutions to residential and commercial customers with an emphasis on the best-performing technology and affordability to meet most budgets.

Additionally, Tech Solar works with a network of highly trained professional solar installers in states across the Nation. These unique partnerships allow Tech Solar to guarantee unrivaled installation services to customers.

In 2016, Tech Solar is looking forward to close on some private equity funding opportunities which will allow Tech Solar to expand their operations to additional states and to offer expanded services to those customers already being served. Additionally, private equity in 2016 will allow Tech Solar to onboard additional staff and make several infrastructure improvements that will mean better service for every Tech Solar client.

Our Vision

A safe and sustainable future for our next generation, species and places with a low carbon environment, safe for all with a minimal impact of weather changes. We are committed to giving our clients the highest level of service possible.

Our Mission

To lead the business in renewable energy sector, providing a safe and secure environment without compromising on the quality, policy, and value of the company.

Our Goal

Our goal is bring this clean, abundant and renewable source of energy home to you and developing a strong relationship with the society.
